Online/Blended Learning Delivery

The programme is blended learning. It rotates between online and onsite teaching inputs. Onsite classes are delivered in our Tallaght Campus, and our online classes are run as tutorials that involve students and their lecturer logging into our online portal Zoom™ simultaneously.

Our blended learning classes are run as tutorials, that involve students and their lecturer logging into our online learning platform Moodle and use the online portal Zoom™ simultaneously.

Zoom™ provides an integrative online environment for students and Lecturers to interact and engage in the learning. This platform facilitates discussion polls, sharing of slides, videos resources and much, much more.

To foster more intimate learning environments the use of breakout rooms is also implemented, allowing for the safe and experiential triadic learning practice that we have found so successful.

All our sessions are accessible through computer and mobile devices, and we have a structured and robust technology department to support all faculty and students through their learning journey. To encourage flexibility, and best practice, we also record all our sessions, these are made accessible only to the students in that class to review content whenever is convenient to them!
