Community Impact Network: Training Courses (https://www.activelink.ie/node/107599)

The Community Impact Network (CIN) is a national network focused on building the collective leadership and capacity of organisations to meet the needs of older people in Ireland.

Community Impact Network does this through provision of Training, Mentoring, Governance & Best Practice, Collaboration & Technology support to members. Partnerships are developed between statutory, community and voluntary services which will enhance services for older people.

CIN

- Highlights service gaps and works with local services to better focus our collective efforts.
- Support other organisations to replicate proven models of service to create a sectoral infrastructure and consolidate service provision nationally.
- Provide supports to our member organisations across the country and map both demographics and available services on the ground.
- Has emerged from organisations locally and nationally working together, to form a shared platform for learning.

We also work with affiliated organisations – private corporations, schools, public bodies, local government, and other services that provide support to older people living at home and in the community.

We train, we connect, we network across diverse organisations, and we bring these into one national network base for services that support older people to create a greater impact.

More information available on our website including our updated training schedule for April – June 2024: https://alone.ie/community-impact-network/#training-cin (https://alone.ie/community-impact-network/#training-cin)
