

HMI Annual Conference 2024 **(<https://www.activelink.ie/node/111247>)**

”Positively leading through complex change in health and social care”

The Concert Hall, RDS, Dublin 4
23rd October 2024
09.15 – 15.30

With the transition to the new HSE Regional Health Areas well underway, structural change to allow for integrated delivery of our health services is the big story. Focus must remain on identified priorities and the follow through of effective strategies to ensure continued reform.

President of HMI, Breda Crehan Roche, will introduce an expert and exceptional line up of speakers where we will hear about the current changes and plans for the further implementation of change. We will hear from senior managers about key priorities and expectations. There will be discussion about approaches to leading change and managing change in a public facing organisation.

The [conference \(https://www.hmi.ie/conference/\)](https://www.hmi.ie/conference/) offers a developmental opportunity for managers in the health services to meet and engage with colleagues. Certificates of Attendance available for CPD purposes (5 CPD points).

Delegate fees:

- Member: €175
- Non-member: €225

Group discounts apply.
