

Generation Green Community Fund **(<https://www.activelink.ie/node/111889>)**

Applications are now open for our €5m /£4.3m Generation Green Community Fund

The SSE Airtricity Generation Green Community Fund has been established to support communities across the island of Ireland in their journey towards sustainability. The fund is designed to empower local communities to take an active role in the Green Transition—a collective shift toward greener, more sustainable living.

The Generation Green Community Fund is open to a wide range of groups – whether projects are part of a grassroots organisation working on environmental awareness, a school looking to integrate sustainability into the curriculum, or a social enterprise creating green solutions, this fund is here to support their vision.

Getting to net zero is in everyone's interest and local communities will be at the heart of the energy transition.
