Connect Safely Programme 12-18 years

Connect Safely is an online safety programme which promotes safer use of digital resources, equipping young people with the skills to safely benefit from being online. It also empowers young people to safely participate in their online communities as positive digital citizens.

The programme is suitable for young people aged 12-18 years. It covers topics such as cyberbullying, privacy settings, screen time and well-being, gaming and gambling, sexting and online relationships. More topics can be seen in the graphic below. The programme can be facilitated in person, online or through a blended approach and can be used in all youth work settings.

Please see Brochure attached below for further information
