

ENCLUDE (<https://www.activelink.ie/node/13985>)

Enclude helps fellow charities deliver greater impact in their work.

We do this by delivering solutions that transform the way charities work, enabling them to spend less time on admin and reporting, and more time focused on service delivery and development.

Since 2006, we have worked with the sector, government bodies and technology partners to deliver access to donated and discounted software, as well as tailored CRM and Cloud Accounting solutions.

Driving digital innovation for the non-profit sector.

We are proudest of our Sector Solutions, including eSafe and eCASS which were developed hand-in-hand with collectives of service providers. These solutions were created to meet the needs of these groups, be designed around their ways of working and reflect best practice in their sectors.

These services continue to be developed based upon evolving best practice, with input from clients who are members of our Communities of Practice. They also led to the creation of eStart and eService, “starter” CRM packages for Non-profits embarking on their digital transformation journey.

Enclude has now assisted over 2,000 Irish Non-profits to access donated and discounted software and completed over 400 successful CRM and Cloud Accounting system implementations. We support over 300 non-profits with our Membership Services which ensure they continue to see the benefits from their CRM investment.

We are proud to be part of the Non-profit sector, enabling it to deliver greater societal impact through digital innovation and transformation.
