

## **Ronanstown Youth Service (<https://www.activelink.ie/node/160>)**

**Our aim is to support the development of a broad based service to all young people in the North Clondalkin area;**

- by offering them support advice and assistance with issues, and
- by helping youth groups to assist the young people in a wide range of activities and opportunities, including mainstream youth groups of special interest such as outdoor pursuits, the arts, sports, drama etc.

We provide direct services for marginalised young people including drug users, young homeless, Travellers, teenage parents, early school leavers and young offenders.

We promote the development of voluntary youth groups and volunteers, and the development and management of resources for young people in the North Clondalkin area.
