

North and East Housing Association **(<https://www.activelink.ie/node/19234>)**

'Making a positive difference to peoples' lives by providing quality homes and supporting communities.'

North & East Housing Association was established in 1992 by a small number of highly committed volunteers who recognised a need for a locally based mainstream housing association in the north east of the country and as such became one of the first Irish home grown housing associations in Ireland.

We work in partnership with local authorities, voluntary organisations and communities in developing building and managing social housing throughout the North East corridor of Ireland and beyond. The accommodation we provide meets a wide spectrum of needs from families, older people, homeless households, people with physical disabilities and people with learning disabilities in both rural and urban settings.
