
A4 Sounds (<https://www.activelink.ie/node/29410>)

A4's mission is to transform the means by which cultural works are produced, accessed, and understood in Ireland, and by doing so to contribute to the development of a more just society. We want to *Make Art That Matters*.

Our workspace is an extension of this work, intended as a participative socially engaged arts and education centre in Dublin. Drawing on the best elements from existing artist studios, maker spaces, social spaces and education practices both nationally and internationally, we are developing a unique model which both supports practitioners' professional development and effects real social change in response to our needs as citizens and communities, and how we access and participate in arts and education.
