
Fire Station Artists' Studios (<https://www.activelink.ie/node/30728>)

Located in north east inner city Dublin, the Fire Station Artists' Studios was established in 1993 to provide support for professional visual artists.

Fire Station provides subsidised combined living and working studios for Irish and international artists, large scale sculpture workshop facilities and training opportunities for artists. The Fire Station training programme has expanded to include digital and film training and we continue to host technical training and master classes which incorporate critical reflection. A key policy of the Fire Station is to contribute to the debate on collaborative and socially engaged arts practice, through a commissioning process that incorporates critique. Fire Station Artists' Studios' mission is to enable contemporary visual artists with recognised potential to sustain a practice of quality and integrity

Mission Statement: Fire Station Artists' Studios is a living and working environment where communities of professional practice, place and interest meet to develop art practices of quality and integrity
