

Cheshire Ireland (<https://www.activelink.ie/node/323>)

Over the past 20 years, Cheshire Ireland has developed and built services all over Ireland. The focus for all services is to work closely with people to support them to live as independently as possible, to make informed choices, take risks and to connect with the local community in real life opportunities.

Our Vision

To support people to live their best possible life

Our Values

People are the foundation underpinning all that we do in Cheshire Ireland. All of our values are guided by a person-centred rights based approach.

Excellence

We are committed to excellence in all aspects of the services we provide by taking pride in the work we do and being driven by the desire for continuous improvement to achieve the highest standards at an individual, team and organisational level.

Partnership

We believe in the development of meaningful partnerships which empower and engage people through involvement and collaboration.

Learning

We are committed to being a learning organisation and we believe in the development of people and the sharing of knowledge.

Integrity

We take pride in working in an open, ethical and transparent manner and are committed to good governance and accountability.

Respect

We are committed to a culture which welcomes diversity while actively demonstrating inclusion and mutual respect in all our interactions.
