

Central Remedial Clinic (CRC) (<https://www.activelink.ie/node/514>)

The Central Remedial Clinic is a non-residential national centre for the care, treatment and development of children and adults with physical and multiple disabilities. Services are provided for people with physical conditions ranging from the very rare to the more familiar, such as cerebral palsy, spina bifida, muscular dystrophy and arthrogryposis.

We are people concerned about the well-being, happiness and achievements of people with disabilities and the welfare of their families, advocates and supporters.

Our key aims are to help people with disabilities to take responsibility for and have control over their own lives, and to set and achieve their own goals.

We seek to achieve our aims by assessing, consulting, treating, educating, developing and supporting people to the best of our abilities. We also seek to understand, anticipate and respond to their needs in a timely and efficient manner.
