

Stepping Stones Care (<https://www.activelink.ie/node/92379>)

Stepping Stones Residential Care was established in 2008. Our purpose has evolved over time and we now offer a broad spectrum of services to include specialized care services for young people and adults with disabilities.

Today we are proud to offer Residential care, Community care, Respite care, Aftercare and semi Independent living services. The ability of any company to provide a high quality care service is dependent on those who deliver the service. We at Stepping Stones are very proud of our staff team, and the dedication they share in delivering the best care possible to both clients and families. All staff hold relevant qualifications in their area of expertise and are Garda vetted, but most importantly our staff team are hand picked because of their dedication and passion for the work they do. It has often been commented that Stepping Stones staff go that extra mile for our clients and it is this that sets us apart from other care providers.

Stepping Stones aims to provide the highest quality of care for children, adults and their families, in an environment in which they are heard and respected regardless of race, religion, ability or disability.

We believe only then can a safe, trusting and supported environment be created, for all those who engage with our services, creating a space for which each individual's aspirations, beliefs, challenges and difficulties can be viewed as positives and where goals and dreams can become a reality.

Our services are specifically tailored to meet each individual's needs. Comprehensive person centered placement plans and therapeutic packages are in place for all those we care for. The ability of any company to provide a high quality care service is dependent on those who deliver the service. We at Stepping Stones are very proud of our staff team, and the dedication they share in delivering the best care possible to both clients and families.
