
Daffodil Care Services (<https://www.activelink.ie/node/92381>)

Daffodil Care Services are a leading social care service provider, established in response to an increased demand for residential and community-based therapeutic services. We promote the values of therapeutic child and youth care in a safe environment where the young person and their family are at the centre of all planning, activities, decision-making and interventions.

Launching our first residential service in 2008, we have since developed a range of service offerings providing a continuum of care through residential and community based services. Daffodil Care offers these services through a national network of registered children's residential centres, semi-independent residential care, aftercare and community based outreach support.
