

Barróg Healthcare (<https://www.activelink.ie/node/92416>)

Barróg Healthcare provides residential care and day packages to enable people who need support across the areas of mental health, disability, aftercare, elderly, transitional and mainstream social care. Our programmes are built around our central philosophy; to embrace the possibilities for each person in our care and work with external support agencies and local community groups to grow and foster independence towards an outcome of social interaction and purposeful contribution, celebrating the best of each person's ability.

Senior Staff at Barróg Healthcare have a combined 120 years working in the social care sector in Ireland. This level of experience informs every decision we make about our service delivery, from recruitment to programme development, everything is driven by experience, informed expertise and a desire to deliver the best quality development care package possible.

Our Mission

To foster ongoing learning in each person the ability to value themselves, reflect with clarity and relate to others with empathy and purpose.

Our Values

Recognising the innate potential of each person and to nurture this through the provision of dynamic led care and the creation of a respectful, safe, accepting environment where our clients can flourish and grow.
