

Harmony Residential Care (<https://www.activelink.ie/node/92897>)

Our mission is to provide whatever supports are required to assist individuals in reaching their potential and becoming integrated into their community.

Harmony Residential Care's team of fully qualified professionals work alongside individuals, their family, the HSE and any other clinical professionals with a legitimate interest in the individual's progression and development.

Our Services

All of our programs are designed from an intensive assessment of the client's needs whether that service is being provided in the client's home or in a residential setting to offer support in areas such as educational, social, emotional and psychological wellbeing. Outcomes are measured regularly and programs are changed to suit the client's needs. Our multi-disciplinary team has input to the support being offered and our team of Social Care Workers drive the care and programme's with clients.
