

Young Social Innovators (<https://www.activelink.ie/node/93177>)

Young Social Innovators (YSI) is a non-profit organisation that empowers young people to use their talents, insights, passion and creativity to come up with innovative solutions to social challenges. For the past 21 years, our fun and engaging programmes have supported students to create team-based action-projects on issues they care about, putting their innovative ideas into action to bring about positive social change for the benefit of people, communities and the environment.

Young Social Innovators empowers young people to reimagine the world into one that is more caring, equal and fair, and to come together to bring their ideas to life. Through engagement in YSI and, through our research and advocacy, young people are given a voice and agency on the issues that matter to them.

Our Vision

Ireland's young people feel inspired, empowered and equipped to change the world for good.

Our Mission

To provide social innovation education that empowers young people to take action on social issues.
