

Offaly Domestic Violence Support Services (ODVSS) **(<https://www.activelink.ie/node/93576>)**

ODVSS's commitment to reflective practices bought a review of the service in 2007. With this review, the service was changed structurally and it was identified that the female victim/male perpetrator model was too simplistic and did not adequately address the complexities of domestic violence and the impact on children, families and communities.

Our mission statement:

To provide support and services for victims of domestic violence and their children at a local level and campaign for societal and legislative changes that will lead to the elimination of violence and abuse.
