

INAR (the Irish Network Against Racism) **(<https://www.activelink.ie/node/94003>)**

The Irish Network Against Racism (INAR) is a membership organisation. Our strength is in our Members, a growing, national Network of diverse Civil Society Organisations committed to combating racism and all related forms of discrimination in every sphere of life in Ireland. We are dedicated to finding common strategies and policy positions for combating racism, finding ways of complementing each other's work, and to offering cross-community and cross-sectoral support and solidarity.

OUR MISSION

As the national collective voice for building solidarity among groups challenging racism, INAR will fight all forms of racism by providing analysis and tools to empower those who experience racism to take action.

OUR VISION

INAR's vision is of an equal, just, inclusive Irish society free from racism.
