

CyberSafeKids (<https://www.activelink.ie/node/94009>)

Established in 2015, CyberSafeKids* is an Irish registered charity which works to empower children, parents and teachers to navigate the online world in a safe and responsible manner.

Our founders and staff have backgrounds in cybercrime investigation, law enforcement, psychology, education, online child protection, academia and the not-for-profit sector.

We can see on a daily basis how technology plays an increasingly important and integral part of both their present and future lives.

It is being used more and more widely in schools and while we view this as a positive, empowering development, even a standard smartphone can potentially allow a child to take risks which were unthinkable 20 years ago.

We want our children to be able to embrace the opportunities for learning and enjoyment that technology can deliver, but we recognise that as parents and educators we have a responsibility to equip them with the tools to stay safe and avoid harm.
