

Elderwell (<https://www.activelink.ie/node/95302>)

Elderwell offers a unique and individually designed program for people in residential/day care that benefits our participants, their families and those professionals involved in the care of our participants and the management of the homes and centres.

Our philosophy is that by living life we stay well.

Elderwell is a family run company dedicated to offering a selection of excellent recreational activities for older people.

Elderwell was founded in 2002, in response to the need expressed by residents in care and their families, to be actively engaged and stimulated.

Elderwell have been helping to raise the standard of recreation and activities thereby improving quality of life, through the provision of person centred activity programs.

Elderwell employs a team of facilitators who have over 20 years combined experience in caring for the elderly. Each team member brings specific sets of skills that continually enhance and evolve our programme.
