1 – The Academy for Social Entrepreneurs

Do you have an innovative idea to solve a social problem? Are you ambitious, entrepreneurial, and passionate about social change? This 6-day programme, over the course of 6 months from June to November, will provide up to 45 high potential social entrepreneurs with the support and direction you need to help you to kick-start your idea and take the next steps to start tackling the problem.

The Academy is taking place in Dublin, Galway, and Cork this year and is worth in excess of €7,500 for each project. The participants of the programme will be supported to develop and progress their idea for social change, to build skills and accelerate learning in core areas of importance for social entrepreneurs, to more clearly articulate their idea, and to move from exploration to action. You can learn about The Academy for Social Entrepreneurs in a short video [here](#).

Together with a small group of fellow innovators, you will receive:

Training & Support

Academy participants will receive training and development to help further their thinking and build their capacity as an entrepreneur. Over the course of the Academy, participants will attend four full day workshops. These will support participants to more fully interrogate the social problem, refine the solution and model, tell their story impactfully, and fund their vision. Participants will also receive mentoring from leading business experts and social entrepreneurs to support them.

A Powerful Community

All participants who have successfully completed the programme will receive membership to the Social Entrepreneurs Ireland Academy Alumni Network. Academy Alumni Network events are an opportunity for Academy Alumni to come together to network and learn from each other, receive expert advice from other social entrepreneurs and participate in training on both personal and professional topics. Through this network, you will receive peer support from other social entrepreneurs and expand your network. Participants also take part in learning group sessions with their fellow Academy participants. These sessions are designed for participants to further their thinking and work on tasks set out at the training days.

Funding

As part of the programme, you will have the opportunity to apply to pitch for a pot of €10,000 funding (per programme) as a way to progress your idea to its next phase of development. You will also receive a small bursary to subsidise your travel to workshops and events during the programme.

2 – What We Are Looking For

The Academy will provide guidance and support to people with ideas to solve societal problems, sparking a new generation of social entrepreneurs. We are seeking to identify individuals with an entrepreneurial drive and aptitude, a passion for social change, a strong understanding of the problem they are addressing, and a great idea to solve it.

What that means in more detail:

We're looking to support potential social entrepreneurs...

The Academy is for ambitious, driven individuals, who are interested in tackling a social or environmental problem. They should act in an entrepreneurial manner and be open to learning and developing themselves through The Academy. We are accepting applications from individuals and two-person partnerships.

A societal challenge...

There are a lot of problems and issues to be addressed in Ireland so we're looking for people who can clearly demonstrate why the issue they want to address is of particular importance and why they're passionate about it. The challenge that their project is addressing can be social or environmental.

An idea....

Applicants should have an idea with the potential to solve a social problem. As social entrepreneurs don't replicate what is already being provided, but instead seek to approach issues from a different angle, the idea should be new or better than what is already done to solve this problem in Ireland. While our Awards Programme works with social entrepreneurs whose projects are already up and running, The Academy caters for those who are in the idea or conceptual stages of creating a solution.

Eligibility Criteria...

- You are aged 18 years or over at the time of applying for the programme.
- You are the person leading on this idea – the main driver and decision maker.
- The primary focus of your idea is on benefiting Irish society.
- You have identified a social or environmental issue and have a new or better idea to solve it.
- You are available to commit to full attendance for all Academy events, outlined below.

Note: Social Entrepreneurs Ireland is not in a position to support research projects, party-political projects, or projects with an explicit religious or faith-based agenda – as opposed to projects that are driven by a personal belief system but are open to all the community.
